

Remote expert help.

When needed.

With XMReality, experts can guide customers in real time using video, annotations, and a shared view. Resolve issues faster, reduce downtime, and avoid unnecessary travel.

How easily it works

Du har blivit inbjuden till att starta ett videosamtal. Tryck på länken för att börja.

1. Connect

Start a call by sharing a link with the person you want to connect with.

2. Guide

Use hand-overlays, pointers and annotations to show exactly what to do.

3. Document

Save and share the session with images, notes and reports for future follow-up.

Access to expertise from anywhere

Use cases

Remote support & troubleshooting

Help customers and technicians identify and solve problems remotely.

Inspections & audits

Inspect equipment and situations without having to travel to the site.

Training & knowledge transfer

Show colleagues how a task should be done, wherever they are.

Benefits

Save time

Faster help and troubleshooting.

Fewer trips

Solve more problems remotely.

Reduce downtime

Get operations running again.

Better documentation

Collect images, notes and reports.

”

Our experts can now visually show what needs to be done, and everyone understands immediately. The result is more accurate troubleshooting, shorter downtime, more satisfied customers, and fewer trips.
